

CV/BIOGRAPHY

Arno Louis (he/him)

Arno is a Swiss multidisciplinary artist based in Biel and graphic designer in Neuchâtel. He has a dozen painting exhibitions and some twenty artistic performances to his credit. His studio also offers workshops in engraving and printing. Graduated from the CFC graphic design school in Biel (2017-2021).

In 2017, he co-founded the clothing brand "LouisWood" with Théo Louis, offering xylogravure prints on textiles. Arno established his Cataclysmes.ch studio in Biel in 2019, within X-Project, where painting takes a central place in his daily life.

Since 2021, Arno has been a composer and performer, both solo and with the Cataclysmes collective, notably with dancing paint. His work blends music, painting, lighting effects and dance, where the body's place in space and its graphic impact are essential to his creative and narrative process. In 2023, he joined the coordination of the espace annexe, the cultural collective of the Jardin de la Main in Neuchâtel, and since the end of 2023, he has been working as a graphic designer at the Laténium museum.
